## At a glance:

IR Number	FG-IR-17-206
Date	Oct 24, 2017
Risk	
Impact	Denial of Service (DoS)
CVE ID	CVE-2017-14182 ( <a href="http://www.cve.mitre.org/cgi-bin/cvename.cgi?name=CVE-2017-14182">http://www.cve.mitre.org/cgi-bin/cvename.cgi?name=CVE-2017-14182</a> )

## PSIRT Advisory

# FortiOS DoS on webUI through 'params' JSON parameter

## Summary

An authenticated user may pass a specially crafted payload to the 'params' parameter of the JSON web API (URLs with /json) , which can cause the web user interface to be temporarily unresponsive.

## Impact

Denial of Service (DoS)

## Affected Products

FortiOS 5.4.0 to 5.4.5

Versions below 5.4.0 are not affected.

## Solutions

Upgrade to FortiOS 5.4.6 or above.

## Acknowledgement

Fortinet is pleased to thank Cody (<https://code610.blogspot.com>) (<https://code610.blogspot.com>) for reporting this vulnerability under responsible disclosure
